Yea. I thought I had forwarded it to you (we mentioned it at lunch, I thought).
Lucky Wade - - to be so certain with such a brief set of experiments, lucky!

▼ Michael Hemmer---06/02/2011 02:00:31 PM---Bill, Peggy found that story in the PNJ concerning Wade's research you mentioned yesterday . Rathe

Bill,

Peggy found that story in the PNJ concerning Wade's research you mentioned yesterday . Rather a lame article, and I'm being kind. I can only hope Wade's research was better executed and interpreted than the PNJ article describes.

I provided Peggy with my thoughts and opinions concerning the article.

MJH

This was in the PNJ yesterday. It is Wade Jeffrey's work with oil and Corexit.
